Pretty fun version of the "golf solitaire" type games. You don't have to beat every single level to 100% this game, and you don't have to play the Mahjong 'bonus' levels, but they're still fun nonetheless.

Not much changes in terms of gameplay or level design, so if you don't enjoy these types of games, you will probably get bored after level 20. Regardless, I love these types of games and I had a generally great time with it.. Another solid Solitaire game. Jewel Match has solid game play and more Mahjong games to unlock. A must have for Solitaire fans. 10/10.. Another awesome solitaire game \u2665
